

**CRITICAL SURGICAL OPERATION.**—Our fellow citizen, E. C. Reddington, Esq., who had been ill for several days, was attacked on Wednesday morning with laryngitis and oedema of the glottis, which required an almost instantaneous operation of tracheotomy to prevent suffocation. The operation was successfully performed by Dr. Newell assisted by Dr. Brooks and Dr. Browne, and on the insertion of the tube into the windpipe, the patient experienced immediate relief. We are glad to learn from Drs. Newell and Brooks, one of whom is in constant attendance, that the prospect of recovery is favorable.—*Caledonian.*

In Johnson, on the 24th inst., Henry A. Daniels, only child of the late Isaac Daniels, aged 31 years.  
Killed in the battle of Black Forest, May 12th. George E. Whitefield, of Johnson, formerly of Francetown, N. H., aged 24 years, 4 months and 12 days, a member of Co. C, 17th Vt. Regt.  
He's gone—forever gone!  
The one we loved so dear;  
Far in a distant land he lies,  
And never will come near.  
Enlisted in his country's cause,  
A soldier, brave was he;  
But I shall never see his face—  
O how it sorrows me.  
We know he's gone to find his rest,  
Far in that happy land,  
Where we will try, some future day,  
To join the heavenly band.

**MARY POWERS, INSANE PERSON.**  
STATE OF VERMONT. In Probate Court holden at LAMOLLE DISTRICT, ss. on the 18th day of June A. D. 1864, in said district on the 24th day of June A. D. 1864.  
S. R. Parker, guardian of Mary Powers, an insane person, of Wolcott, in said district, has represented to this court that his said ward has real estate in said Wolcott, in her own right, and being a part of lot No. 101; in the second division, and particularly described in his application in writing to this court, and further represents to this court that a sale thereof is necessary to procure funds to support his said ward, and requests said court to grant him license to sell said real estate.  
It is therefore ordered that said application be referred to hearing to the 18th day of July, A. D. 1864, at the Probate Office in Johnson, and that notice thereof be given by publication in the Lamolle Newsdealer, printed at Hyde Park, three weeks successively, prior to the day set for said hearing, that they may appear at said time and place, and show cause if any they have why said license should not be granted.  
By order of Court.

**GRANITE STATE HEALTH INSTITUTE!**  
Hill, N. H.

**To Invalids:**  
The physician to the Granite State Health Institute desires to say to invalids, that he has now kept a health establishment for a dozen years, during which time he has restored many hundreds of cases of the worst forms of chronic disease to perfect health.  
He uses no drugs nor poisons of any kind in his treatment, but devotes himself to the development of the innate powers of the system itself, and cures disease by developing health and strength in the organism.  
This mode is successful in thousands of cases where the patient utterly fails by the drug poison mode.  
Patients who come here for treatment, no matter how bad their disease, or how long they have been sick, are, almost without a single exception, greatly pleased with the result. We append a commendation from our last summer's patients, simply by way of showing the state of feeling and sentiment which usually prevails among the patients of the institute:  
“The undersigned, at this date guests at the Granite State Health Institute, Hill, N. H., take pleasure in commending this establishment to the attention of invalids throughout the country.  
“Dr. W. T. Vail, the conductor of the establishment, is a gentleman of experience and skill, having been educated to the medical profession by a long course of personal suffering in early life, as well as by collegiate instruction, and has now been the successful conductor of an establishment for nearly a dozen years. His reputation is growing, and his house for the present season has been crowded to its utmost capacity, and he has been obliged to lay under contribution all the spare house room in the village. He contemplates enlarging his establishment the coming season, and greatly improving his conveniences.  
“Invalids placing themselves under his direction will find themselves under the care of a gentleman, who has a living faith in the system he practices, and a confidence that he understands his business, who will look after his patients attentively, prescribe for them with care, and require of them somewhat imperatively that they follow his prescriptions.  
“Mrs. E. M. Vail has charge of the female department, for which her qualifications admirably fit her, and fills for the present the office of female physician in the establishment with acceptance.  
“The dietary arrangements of this establishment are of the first order. Miss S. Davis, the intelligent and experienced lady who presides over this department, thoroughly understands the magic art of producing the most palatable dishes from the simplest materials, which contributes in no small degree to the good success of the treatment administered here.  
“The vegetarian theory, as adopted at this Institute, is the true theory of human dietetics; yet meat is allowed two or three times a week for such as are not prepared to break off suddenly from the use of animal food, and this course is commended as being the wisest for many, especially for those somewhat advanced in life and long accustomed to stimulating food.  
“The moral influences of the establishment are good. The Doctor is a man who aims at nothing short of a correct life, morally and spiritually as well as physically, and this is the spirit and tone which pervades the whole establishment. There is a morning exercise daily, which includes a short lecture upon some medical, physical or moral topic, reading the Scriptures, music and prayer, which secures a good attendance.  
“Patients who are feeble and unable to walk much for exercise, are carried to ride each day one mile and back, free of expense, a feature peculiar to this institution, so far as we know, and, as we think, of much value to the patient.  
“The arrangements of the house are all made and carefully carried out for the benefit of the sick, and believing this establishment affords important facilities for the recovery of lost health, with terms more moderate for value received than most others of the kind, we think we may be doing good service to the sick and suffering of our race by recommending it to their notice.

**Attention, Farmers! MOWING MACHINES!**  
The time has come when farmers no longer question the utility of mowing machines. That certain patents will do good service upon almost any farm in northern Vermont is an established fact. A true savior of the knaves which work in serious objections are well founded. Either they have been so heavy and ponderous as to fret and worry a team, or so complicated in their construction, and light built in their most important parts as to constantly get out of repair. What is felt to be needed by our farmers is a machine that is light, strong and durable, easy of draft, equally balanced, clean cutting, simple and compact, easily handled and not likely to get out of repair. The test of three years has established the fact that the FARMER MOWER, (Pine's patent) is the machine to fill this want. The gearing is simple, and gives a short, powerful, and a true stroke of the knives which work in strong, straight, open squares, and will always cut in wet or dry grass. To choke them is impossible. This machine was introduced late last year into this country and consequently but few were under trial. Hear what those who used them have to say in relation thereto.

**CERTIFICATES.**  
“I used the Farmer mowing machine, (Pine's patent) the summer of 1863, and am fully satisfied that it cannot be beat in the execution of its work, ease of draft and facilities for being handled and controlled. I have used it in all kinds of grass, wet and dry, fine and coarse; also where grass had been badly mowed. In all these places it worked finely. I am 67 years old, yet I can as easily ride with it as a younger man, and to ride in my wagon. I would as soon my horses would work upon it as to plow common stubble ground the same length of time. I had rather pay for the Farmer than take any other that I have seen used, as a gift, for a good thing is worth having.  
WINGATE WEBSTER.  
Morristown, Vt.”  
“Morristown, June 1st, 1864.  
Mr. H. Ferrin.—Dear Sir:  
I used the mower I bought of you last year, called the Farmer, (Pine's patent) and am well pleased with it in all respects. It is easily managed, light of draft and does its work finely. I would not part with it for any machine I ever saw.  
Yours truly,  
DANIEL SMITH.”  
I confidently place the FARMER before the farmers of this vicinity. If any of you want a good machine, try this. And if you do not like it, do not buy it. Let it rise or fall upon its merits.  
This machine is manufactured by W. F. Parmenter, Troy, N. Y.

**U. S. 10-40 BONDS!**  
These Bonds are issued under the Act of Congress of March 3d, 1861, which provides that all Bonds issued under this act shall be exempt from taxation by or under any state or municipal authority. Subscriptions to these bonds are received in United States notes or notes of National Banks. They are to be redeemed in coin, at the pleasure of the government, at any period not less than ten nor more than forty years from their date, and until their redemption five per cent interest will be paid in coin, on bonds of not over one hundred dollars annually, and on all other bonds semi-annually. The interest is payable on the first days of March and September in each year.  
Subscribers will receive either Registered or Coupon Bonds, as they may prefer. Registered Bonds are recorded on the books of the U. S. Treasurer, and can be transferred only on the owner's order. Coupon bonds are payable to bearer and are more convenient for commercial uses.  
Subscribers to this loan will have the option of having their bonds draw interest from March 1st, by paying the accrued interest in coin—or in United States notes, or the notes of National Banks, adding fifty per cent premium, or receive them drawing interest from the date of subscription and deposit. As the Bonds are

**Exempt from Municipal or State Taxation.**  
their value is increased from one to three per cent, per annum, according to the rate of tax levied in various parts of the country.  
At the present rate of premium on gold they pay OVER EIGHT PER CENT INTEREST in currency, and are of equal convenience as a permanent or temporary investment.

It is believed that no securities offer so great inducements to lenders as the various descriptions of U. S. Bonds. In all other forms of indebtedness, the faith or ability of private parties or stock companies or separate communities only is pledged for payment, while for the debts of the United States the whole property of the country is held to secure the payment of both principal and interest in coin.  
These Bonds may be subscribed for in sums from \$50 up to any magnitude, on the same terms and are thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the holder will have the benefit of interest.  
It may be useful to state in this connection that the total Federal Debt of the United States on which interest is payable in gold, on the 3d day of March 1864, was \$768,965,000. The interest on this debt for the coming fiscal year will be \$45,937,126, while the customs revenue in gold for the current fiscal year, ending June 30th has been so far at the rate of over \$100,000,000 per annum.  
It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the treasury for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to \$150,000,000 per annum.  
Instructions to the National Banks acting as loan agents were not issued from the United States Treasury until March 26th, but in the first three weeks of April the subscriptions averaged more than ten millions a week.  
Subscriptions will be received by all NATIONAL BANKS

which are depositaries of public money, and all respectable banks and bankers throughout the country, (acting as agents of the National Depositary Banks) will furnish further information on application and AFFORD EVERY FACILITY TO SUBSCRIBERS. 25m3

**Important to Pensioners!**  
Pensions, Bounties, Back Pay, and Claims, of all kinds against the General or State Governments.

**POWERS & GLEED, attorneys at law, Morrisville, Vt.,** are prepared to prosecute all kinds of claims against the government. They have had a larger experience in prosecuting claims for pensions, bounties, &c., during the present war, than any other agents in the part of the State. Their blanks are prepared by an examiner of the Pension Office, and being correct, applicants are saved the expense and delay incident to applications made; they are furnished with bound copies of all the pension, bounty and bounty laws in force, together with all the decisions of the Pension Bureau and Attorney General thereon. They charge only the fees established by law.  
The following are entitled to pensions, viz:—  
Soldiers wounded or disabled by disease.  
Widows of all soldiers that die in the service.  
Children under 16 years of age, if no widow.  
Orphan sisters under the age of 16, if no widow or children.  
Mothers dependent, wholly or in part, on their sons who die of wounds or disease, are entitled as above.  
The \$100 bounty is paid in the following order: 1st.—to widow, if any living.  
2d.—to children.  
3d.—if no widow or children living, to the father.  
4th.—the mother.  
5th.—Brothers and sisters.  
6th.—heirs generally.  
Pensions, bounties and all back pay, whether due from the State or the United States, is exempt from the claims of creditors. Soldiers who serve two full years are entitled to bounty. Soldiers discharged by reason of wounds received in battle are also entitled to bounty whether they serve two years or not. We are also supplied with blanks for pensions, whether in the present or former wars, for drawing their money in September and March. Call on or address

**MARBLE SHOP!**  
STOWE, VT.

**W. GILLET**  
would announce to the citizens of Lamolle Co. and vicinity, that he has taken the Marble Shop formerly occupied by H. D. Wood, where he will manufacture Grave Stones, Monuments, &c., in a style of finish unsurpassed by any in the State. He would say to all those in want of such, to call and examine before purchasing elsewhere, as he feels confident, from his long experience in the work, that he can give entire satisfaction.
